Docket No.: 025058.0101PTUS

Application No. 10/690,344  
Amendment dated October 11, 2006  
Reply to Office Action of April 12, 2006

AMENDMENTS TO THE CLAIMS

1. (Currently Amended) A system for managing public communications and public comment, comprising:

a server computer operatively connected to a network;

a secure web portal for members of the public-at-large remotely accessing the server computer over the network;

access to the server computer by project team members for managing public involvement projects;

a communications manager application having:

an information module;

a project team tools module;

a communications tools module;

site management tools module; and

wherein the server computer provides access, following authentication, by the members of the public-at-large and the project team members to one or more of the information module, the project team tools module, the communications tools module, and the site management tools module.

2. (Currently Amended) The system of claim 1, wherein the information module provides one or more of project overview, recent project changes, and project status status.
